SARANG SHIVAY PRAJAPATI

Frontend Developer (Angular)

Kanpur, Uttar Pradesh 208012 | sarangprajapati06@gmail.com | +91 78811 01987 | Linkedin

PROFESSIONAL SUMMARY

Frontend Developer with 4+ years building production web applications for 10,000+ active users in Angular, TypeScript, and RxJS. Led the team's NgRx adoption, cutting state-related bugs by 25%, and raised frontend performance by 35% while trimming page load times by up to 40%. Equally comfortable full-stack: designed, built, and deployed a payment-integrated booking platform on Next.js with Razorpay payments, from data model and APIs to live production.

TECHNICAL SKILLS

Frontend: Angular (v12–v20), TypeScript, JavaScript (ES6+), RxJS, NgRx, Signals, Change Detection, Karma, Jasmine, Angular CLI, HTML5, CSS3, Angular Material, Tailwind CSS, React.js, Next.js

Backend & APIs: Node.js, Express.js, Next.js API Routes, REST API Integration, Webhook Integration, Prisma ORM, Zod Validation

Testing & Tools: Jest, Karma, Jasmine, Vitest, Unit Testing, Git, GitHub, npm, yarn, Vite, CI/CD, Vercel, Postman

Practices: Agile Development, Responsive & Mobile-First UI, Performance Optimization, Reusable Component Architecture, Cross-Browser Compatibility, OAuth 2.0 & JWT Authentication, Payment Gateway Integration, Server-Side Rendering, Code Review

PROFESSIONAL EXPERIENCE

Frontend Developer | Sigma Staffing Solutions Pvt. Ltd., Kanpur, U.P. | Nov 2024 – Present

- Engineered and maintained scalable single-page applications in Angular, TypeScript, NgRx, and RxJS, raising application performance by 35% and trimming page load time by 2.5 seconds.
- Initiated and led the team's adoption of NgRx, proposing the migration plan to senior engineering leadership and cutting state-related bugs by 25%.
- Built reusable UI components and responsive dashboards with cross-functional teams, increasing development efficiency by 30% across multiple projects.
- Integrated RESTful APIs throughout the frontend, reducing response-handling errors by 40% while supporting 10,000+ active users.

Application Developer | Shokone Enterprises Pvt. Ltd., Kanpur, U.P. | Mar 2022 – Nov 2024

- Enhanced UI responsiveness and cross-browser compatibility across desktop and mobile, lifting customer satisfaction scores by 20%.
- Mentored 2 junior developers on Angular best practices and code review, raising sprint delivery consistency.
- Partnered with backend and QA teams to resolve production issues, shortening bug resolution time by 45%.
- Created reusable modules and form-validation features, cutting duplicate development effort by 30% and contributing to 99.5% application uptime.

PROJECTS

HR Management System (HRMS) | Angular 19, TypeScript, NgRx, RxJS, JWT, REST APIs, Angular Material

- Delivered an end-to-end HRMS portal with role-based access for 4 user types — admin, HR, manager, and employee — streamlining workflows for 200+ employees and cutting manual HR processing time by 35%.
- Built the employee records, attendance, leave-approval, and payroll-input modules on a shared NgRx store, keeping every dashboard, list, and approval queue consistent from a single source of truth.
- Secured every route and module with JWT authentication and Angular route guards, so each role reaches only the screens and API data it is entitled to; added reusable form-validation components used across all modules.
- Compressed report generation time by 40% with real-time dashboards and reusable chart and data-table components, and made the whole portal responsive so managers could approve requests from mobile.

Job Portal | Angular 20, TypeScript, RxJS, REST APIs, JWT, Angular Material

- Architected a job portal with role-based authentication, job posting, and application tracking for 5,000+ job seekers and recruiters.
- Accelerated initial load speed by 40% with lazy loading and reusable components, and cut listing update latency by 50% through real-time API integration.

Sports Turf Booking Platform | Live — turf-booking-eosin.vercel.app

Next.js 16, React 19, TypeScript, Node.js, Prisma ORM, Razorpay, Auth.js (Google OAuth), Tailwind CSS, Vercel

- Designed and shipped a full-stack booking platform end-to-end — database schema, REST APIs, mobile-first UI, and production deployment — with live availability and server-side price calculation.
- Secured the payment flow with HMAC-signature-verified Razorpay webhooks as the only path to confirmation, plus gateway reconciliation, idempotency keys on every order, and automatic refunds for late payments.
- Eliminated double-booking under concurrent load with a database uniqueness constraint and 409 conflict handling; covered booking logic with 41 unit tests and built an owner dashboard with search, date filters, and Excel export.

EDUCATION

Bachelor of Computer Applications (B.C.A.) | Dr. Virendra Swarup Institute of Computer Studies | 2019

CERTIFICATIONS

Generative AI Foundations — upGrad with Microsoft (Sep 2026) | Front End Engineer in Angular, Top 5% — Pro5 (Apr 2024)
MERN Stack Developer — SkillUp by Simplilearn | JavaScript — SkillUp by Simplilearn
